

August 2010

*Message from your President –*

Well our show season is rapidly coming to close but what a great season it has been. Our last show the Gus Johnson Ford Slide was the largest July show we have ever had, with entries and payouts up in every class. We think our upcoming September show will be “busy” and have changed our class schedule in anticipation of this. Hopefully this will keep our futurity classes from running so late Saturday evening.

I would like to thank Mike Stokes for donating our clinic for the July show. The clinic was over booked, a good indication of the response to this added specialty class. As with the first clinic we had nothing but good comments.

A couple of items pertaining to our up-coming show – the Spin Out & All Star Futurity;

- The above mentioned class schedule is important, for it will affect all of you. The paid warm-ups have been moved to Friday morning, Sept 10, with an open arena from 2 to 5pm and then the Ladies and Gentlemen’s classes starting at 5:00pm Friday evening. Saturday morning classes start at the same time as in the past, 7:00am, beginning with Junior Horse .
- Our shows always have something to provide added entertainment and again this year we will be having dog races at the lunch break on Sunday. This has always been a hoot, so bring your racers pure bred or mutt, it makes no difference.

Finally we will be sending out survey for you to participate in, this gives you a chance to express your opinion. From last year’s survey results we incorporated several of the comments, and ideas in to this year’s shows. We will be doing the survey electronically and there will be hard copies at the All Star Futurity. Watch for an email with instructions.

Again the volunteer help has been fantastic, your participation has been fantastic and here is looking forward to the Spin Out & All Star Futurity.
